Against Empathy: The Case for Rational Compassion is a 2016 book written by psychologist Paul Bloom. The book draws on the distinctions between empathy, compassion, and moral decision making. Bloom argues that empathy is not the solution to problems that divide people and is a poor guide for decision making. However, he is not completely against empathy; he believes that empathy can motivate kindness to make the world a better place. Overall, the book received mixed reviews as some reviewers cri

So one problem with empathy is it misdirects our action. Another problem with empathy is that it's used as a tool for violence and aggression. For every atrocity, every poorly thought-out war, people use empathy as a way to elicit aggression. Inevitably, for any discussion, sooner or later, we have to discuss Trump.
