Bergson Henri University Of Warwick

Henri Bergson was the philosopher who, in an intellectual career stretching from the 1880s to the 1930s, provided a rigorous account of the real efficacy of time (which he called duration). This allowed him to conceive of creativity as the source of both psychological freedom and of life as an open system.

I have three main aims in writing this thesis on the social thought of Henri Bergson: to establish what society is in his view, to work out the implications of this for individuality, and to demonstrate the contemporary value of his philosophy as a whole, thus construed. It will be the task of the first two chapters to establish that society is a biological and cultural reality for Bergson.

This thesis explores issues in aesthetics with reference to Bergson. The first chapter outlines and assesses Bergson's interesting and subtle theory of humour, which emphasises the necessary lack of sympathy in humour, and its generalising, external methodology. In doing so it explores the different ways the motif of 'something encrusted on the living' functions on various levels.

About Understanding Bergson, Understanding Modernism. Henri Bergson is frequently cited amongst the holy trinity of major influences on Modernism-literary and otherwise-alongside Sigmund Freud and William James. Gilles Deleuze's Bergsonism has re-popularized Bergson for the 21st century, so much so that, perhaps, our Bergson is Deleuze's Bergson. Despite renewed interest in Bergson, his influence remains understudied and consequently undervalued.

Henri Bergson is one of the truly great philosophers of the modernist period, and interest in his work is currently experiencing a major renaissance. This essential book contains Bergson's classic statement that to philosophize is to reverse the habitual directions of our thinking, and his claim that true empiricism amounts to true metaphysics.
