The Society for Conservation Biology (SCB) is a non-profit, 501(c)(3) organization dedicated to facilitating, promoting, and advancing the scientific study and conservation of biological diversity. While our historical roots were founded in the field of biology, we recognize that conservation in today's complex world requires a globalized approach that maximizes collaboration amongst

professionals from all fields.

Society for Conservation Biology | Who We Are

Engineering Biological Diversity In a new paper, I introduce the international governance of synthetic biology, gene drives, and de-extinction for conservation. In addition to climate change — the primary topic of my academic writing — biodiversity loss is the other major global environmental challenge.
