Catching Breath The Making And

Catching Breath follows the history of TB through the ages, from its time as an infection of hunter-gatherers to the first human villages, which set it up with everything it needed to become the monstrous disease it is today, through to the perils of industrialization and urbanization. It goes on to look at the latest research in fighting the disease, with stories of modern scientific research, interviews with doctors on the TB frontline, and the personal experiences of those affected by the ...
