### Higher Education And Sustainable Development

Of the 17 Sustainable Development Goals (SDGs), adopted in 2015, SDG4 is dedicated to education. Higher education is mentioned in target 4.3 of SDG4 which aims to “By 2030, ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, including university.”. Higher education also forms an important part of other goals related to poverty (SDG1); health and well-being (SDG3); gender equality (SDG5) governance; decent work and economic ...

### Higher education and the Sustainable Development Goals

Given its primary role as knowledge producer, higher education can serve as a powerful means to help create a more sustainable future. Thus, the concept of ‘education for sustainable development’ has become, in recent years, one of the core educational initiatives to help address many of the problems associated with human development.

### Higher education’s key role in sustainable development

Only through a substantive reform of higher education will low income countries be able to deliver quality education that will lead to sustainable development. Finally, Elaine Unterhalter and Coleen Howell’s contribution offers a rigorous review of existing literature on the role of tertiary education in low- and lower-middle income countries.

### Higher education and the Sustainable Development Goals ...

Higher Education and Research for Sustainable Development (HESD) Future well-being of humanity and the planet depends on successful resolution of the interconnected challenges of economic, social, cultural, and environmental sustainability. Since 1993, IAU advocates for the key role higher education plays in achieving sustainable development.
