Horizontal Inequalities And Conflict Understanding

Drawing on econometric evidence and in-depth studies of West Africa, Latin America and Southeast Asia, this book explores how horizontal inequalities - ethnic, religious or racial - are a source of violent conflict and how political, economic and cultural status inequalities have contributed. Policies to reverse inequality would reduce these risks.

Drawing on original quantitative and qualitative research, this book shows that horizontal inequalities among religious or ethnic groups, in political, social, economic or cultural dimensions, are...

Horizontal Inequalities and Conflict: Understanding Group ...

horizontal inequalities as distinct from vertical inequality tends to lead to conflict in our view. I think what one needs to do is to differentiate the motives of those who lead a conflict or orchestrate it and those who support it or follow it, and the motives of leaders are very often a question of political access.

Horizontal Inequalities and Conflict - GOV UK

• Horizontal inequalities, between natives and migrants, are key factors in understanding when and where violence against migrants breaks out. • In order to prevent the outbreak of nativist violence, we recommend that policy-makers take steps to promote the political and economic inclusion of indigenous groups,

How horizontal inequalities

The importance of worrying about inequality is a matter of justice, wellbeing, and efficiency. Inequalities, especially socio-economic and political ones, have also been shown to be the cause of many of the violent conflicts that have erupted in the modern era. In this context, Wexler's Social Vision makes important interventions that deserve critical engagement, especially around the idea of ...

Why Worry About Horizontal Inequalities and What To Do ...

There is increasing evidence that the presence of horizontal inequalities (HIs), or inequalities among groups, raises the risk of conflict, and this is the central issue covered in these readings. There has long been controversy as to the role of inequality in causing conflict with some econometric studies finding little connection (Fearon & Laitin 2003; Collier & Hoeffler 2004).

Horizontal inequalities - GSDRC

However, these strong claims rest on questionable theoretical and empirical grounds. Whereas scholars have examined primarily the relationship between individual inequality and conflict, we argue that horizontal inequalities between politically relevant ethnic groups and states at large can promote ethnonationalist conflict.

Severe horizontal inequalities are undesirable in themselves and can lead to violent conflict. It is therefore important to reduce them wherever possible. This paper reviews a range of policies that could contribute to reducing HIs in the political, socio-economic and cultural status dimensions.

Horizontal Inequalities - GSDRC

The concept and theory of horizontal inequalities is also gaining purchase in donor agencies and the broader international development community, particularly in the context of specific countries undergoing or recently emerged from violent conflicts in which such inequalities appear to have played an important role.

Horizontal inequalities and conflict: a critical review ...

More particularly, she asserts that where there are social, economic and political inequalities, 'coinciding with cultural differences, culture could become a powerful mobilising agent that can lead to a range of political disturbances,' including violent conflict and civil war (Stewart, 2002: 3).

Horizontal Inequalities and Violent Conflict | Human ...

Introduction. Drawing on econometric evidence and in-depth studies of West Africa, Latin America and Southeast Asia, this book explores how horizontal inequalities - ethnic, religious or racial - are a source of violent conflict and how political, economic and cultural status inequalities have contributed. Policies to reverse inequality would reduce these risks.

Horizontal Inequalities and Conflict | SpringerLink

This chapter advances the view that horizontal inequalities, or inequalities among identity groups, are an important cause of violent conflict in multiethnic or multi-religious societies. It follows that horizontal inequalities need to be monitored in multi-ethnic societies; and where they are found to be large, corrective policies are needed.
