that people are pulled toward behaviors that lead to rewards and pushed away from actions that might lead to negative consequences.

The Incentive Theory of Motivation - Verywell Mind

The key thought behind any 'incentive' should be that incentives are the 'tools' you can use to create action and that they can be motivational, but it's all about balance. Too much focus on external incentives and you could tip people into externalised motivation (driven only by the carrot) and too little and you don't see the growth, passion and results they help achieve.

Incentive and Motivation - What's the difference ...

Incentive Theory and the Effects of Extrinsic Motivation Incentive theory is based on the idea that behavior is primarily extrinsically motivated. It argues that people are more motivated to perform activities if they receive a reward afterward, rather than simply because they enjoy the activities themselves.
