Eye contact is a strong nonverbal cue that serves four functions in communication (Hickson, 2010). First, eye contact regulates the flow of communication by signaling the beginning and end of conversation. Second, eye contact facilitates and monitors feedback, because it reflects interest and attention. Third, eye contact conveys emotion.

Louder Than Words: The Hidden Power of

Effects of Non-Verbal Communication. Non-verbal communication, especially body language, can send a strong message in spite of what your words say. Even the tone of your voice, its pitch, volume, quality, and speed affect what you say. Your body language can: * Repeat the message your words are saying; * Contradict what your words are saying;
