Ear training is the process of breaking down the elements of music into their simplest form and connecting them with the way we physically hear sound. Traditionally, ear training for musicians includes skills like identifying intervals, chord quality and chord progressions. Ear training for audio engineers typically includes identifying ...

Ear Training Apps: The 8 Best Tools For Improving Your ...

Ear training or aural skills is a music theory study in which musicians learn to identify pitches, intervals, melody, chords, rhythms, solfege, and other basic elements of music, solely by hearing. The application of this skill is analogous to taking dictation in written/spoken language. As a process, ear training is in essence the inverse of sight-reading, the latter being analogous to reading a written text aloud without prior opportunity to review the material. Ear training is typically a co
