### McCulloch Engine How

The McCulloch engine doesn't come equipped with a starter but that wasn't a problem for me during my years of gyro flying because my husband Docko, was there to prop the engine for me. With his help always available, I never even thought about a starter. Docko passed away, and I retired from gyro flying and instructing.

The McCulloch MAC-101, also called the MC-101 and MC101, is a two-stroke, single cylinder engine that was designed and produced by McCulloch Motors Corporation for kart racing use, being introduced in 1967. It was also used in the late 1970s and early 1980s as an ultralight aircraft engine.

### McCulloch MAC-101 - Wikipedia

McCulloch recommends clearance of 0.0056"– 0.006" but I have found that using 0.006" to 0.0075" lessens the likelihood of engine seizure under racing conditions. Of course this means less time between rebuilds but most of us do not put a large amount of hours on these vintage engines anyway so I don't consider it an issue.

### McCulloch Mc8 Engine Rebuild - Vintage Karting Association
