(PDF) Merchants of Doubt: How a Handful of Scientists ...

Merchants of Doubt is a nonfiction account of how a loose-knit group of scientists—Fred Seitz, Fred Singer, Bill Nierenberg, and Robert Jastrow—with similar political agendas worked to prevent government regulation by creating the appearance of scientific debate on several topics. These topics included smoking (both first- and secondhand hand smoke), acid rain, Regan’s Star Wars (or Strategic Defense Initiative), the ozone hole, global warming, and the use of pesticides, specifically DDT.

...

A key tactic used by the Merchants of Doubt was to invoke the ideals of fairness and balance to persuade the media to give equal time to their views. Even the great Edward R. Murrow fell prey to this tactic, giving the tobacco industry equal time to argue that the facts regarding the harms of tobacco were not established.

FAQ - Merchants of Doubt

Merchants of Doubt Quotes Showing 1-30 of 131 “While the idea of equal time for opposing opinions makes sense in a two-party political system, it does not work for science, because science is not about opinion. It is about evidence.”

.
