On Generation and Corruption - The Internet Classics ...

On Generation and Corruption, also known as On Coming to Be and Passing Away is a treatise by Aristotle. Like many of his texts, it is both scientific and philosophic (although not necessarily scientific in the modern sense). The philosophy, though, is essentially empirical; as in all Aristotle's works, the deductions made about the unexperienced and unobservable are based on observations and real experiences.

...

In Aristotle: Physics and metaphysics. In works such as On Generation and Corruption and On the Heavens, he presented a world-picture that included many features inherited from his pre-Socratic predecessors. From Empedocles (c. 490–430 bce) he adopted the view that the universe is ultimately composed of different combinations of the four fundamental elements of...
