Oral Pathology - Dimensions of Dental Hygiene

One of the most challenging areas in dental and dental hygiene practice is the diagnostic process. In oral pathology, there is nothing more important. The dentist is ultimately responsible for the definitive diagnosis of a lesion or condition in question. However, the dental hygienist plays a key role in the preliminary evaluation and data collection of oral pathologic conditions.

Putting the Pieces Together - Dimensions of Dental Hygiene

You all have asked, and we're delighted to be bringing more fascinating oral pathology cases to the pages of RDH magazine. Although dental hygienists usually don't provide definitive diagnoses for lesions or masses, we know that in many cases you are the first set of eyes to identify anything that may be potentially abnormal.
