Social Space and Governance in Urban China is an interpretive portrait of the danwei system framed by concepts and methodology drawn from Michel Foucault. Author David Bray, a lecturer in Chinese politics at Cambridge University, seeks to reveal through the danwei how the "political and economic strategies of government in China have impinged upon the everyday lives of the urban population" (p. 1).

'Ungoverned space' perpetuates a state-centric understanding of governance and conflict, implying in the first instance, that in such spaces the state is entirely absent; and in the second instance, that such absence results in a lack of any effective governance, and therefore conflict.

Governance and Conflict in the Sahel's 'Ungoverned Space'

Space governance may also differ between space settlements and levels of self-governance are likely to also vary. Because Great Britain had a representative parliament and a monarchy with limited authority, settlement colonies adopted cabinet governments, and after 1931 became sovereign states, keeping only an allegiance to the crown. Likewise, in the realm of space governance, allegiance to original colonizing countries is likely to exist as well as a certain degree of representation in a ...
