Top 11 Inventions and Discoveries of Mesopotamia

Beginning around 5,500 years ago, the Sumerians built cities along the rivers in Lower Mesopotamia, specialized, cooperated, and made many advances in technology. The wheel, plow, and writing (a system which we call cuneiform) are examples of their achievements.

Ancient Mesopotamia - The Sumerians

Cuneiform writing was established from 3500 - 3000 BC by the Sumer Empire, and remained popular throughout the history of ancient Mesopotamian civilizations. This is one of the earliest writing systems we know of! But it didn't work the same way that writing works today, like when we use pens to put ink on paper.

Ancient Mesopotamia - Enchanted Learning

One of the great contributions the Sumerians made to civilization was their many inventions. They invented the first form of writing, a number system, the first wheeled vehicles, sun-dried bricks, and irrigation for farming. All of these things were important for the development of human civilization.

Ancient Mesopotamia Inventions and Technology. - YouTube

The Sumerians were the inventors of many things that are common objects in present-day, like the wheel and the sundial. These people are also credited with creating the arch, the dome, the Potter's wheel, and making bronze from copper and tin. All these accomplishments imply that the people of Sumer were advanced in math for their time period.

Technology - Mesopotamia

The Early Dynastic Period of Mesopotamia is the modern-day archaeological term for the era in Mesopotamian history — 2900-2334 BCE — during which some of the most significant cultural advances were made including the rise of the cities, the development of writing, and the establishment of governments. This era was preceded by the Uruk Period (4100-2900 BCE) when the first cities were ...
