Much of its collection was seeded by Project Gutenberg back in the mid-2000s, but has since taken on an identity of its own with the addition of thousands of self-published works that have been made available at no charge.

The Domestication Of Language Cultural

The Domestication of Language brings an important new perspective to an extraordinarily difficult and important topic: the evolution of language. Language is the result of intelligence: an invented social and communicative technology, invented not by a Promethean genius, but multi-generationally by us all as we respond to and experiment in our specific situations.

The Domestication of Language | Columbia University Press

Transmission of language and culture Language is transmitted culturally; that is, it is learned. To a lesser extent it is taught, when parents, for example, deliberately encourage their children to talk and to respond to talk, correct their mistakes, and enlarge their vocabulary.

Language - Language and culture | Britannica

Domestication has played an enormous part in the development of humankind and material culture. It has resulted in the appearance of agriculture as a special form of animal and plant production. It is precisely those animals and plants that became objects of agricultural activity that have undergone the greatest changes when compared with their wild ancestors.

domestication | Definition, Of Plants, Of Animals, & Facts ...

The Domestication approach uses a number of different concepts to distinguish various aspects of the process. For example: Appropriation is the process of bringing a technology into a household, or another local cultural context; Conversion is the remaking of the meanings, or values and norms associated with the technology and the transfer of these back to the 'outside' world.

Domestication theory - Wikipedia

Domestication of the English Language in the environments where it is used as Second Language (L2) of Foreign Language (EFL) is no more a bizarre phenomenon, but a welcome development because the language has today, emerged as a global one, therefore no longer an exclusive preserve of the British or its ancestral home.

DOMESTICATION OF THE ENGLISH LANGUAGE IN

Domestication is a sustained multi-generational relationship in which one group of organisms assumes a significant degree of influence over the reproduction and care of another group to secure a more predictable supply of resources from that second group.[1] The domestication of plants and animals was a major cultural innovation ranked in importance with the conquest of fire, the manufacturing of tools, and the development of verbal language.

Domestication - Wikipedia

Daniel credits Daniel Dennett with the idea that languages might be domesticated. My own research suggests that the idea of domesticated memes dates back at least to Adam Westoby's work from 1994. Anyway, meme enthusiasts had this idea long ago, but many academics have yet to get to grips with it.
