To conservatives, tax reductions served the dual purpose of enhancing business profits and reducing the resources available to government, thus making new social programs financially impossible. Many Americans found taxes increasingly burdensome. On paper, their incomes were rising, although the gains were nullified by inflation.

United States History - Conservatism and the Rise of ...

Conservatism in the 19th century. The 19th century was in many ways antithetical to conservatism, both as a political philosophy and as a program of particular parties identified with conservative interests. The Enlightenment had engendered widespread belief in the possibility of improving the human condition—a belief, that is, in the idea of progress—and a rationalist disposition to tamper with or discard existing institutions or practices in pursuit of that goal.
