Venture capital is a financial industry in which institutions (the venture capital firms) raise money from many sources and invest that money in high-risk companies that possess paradigm-changing ideas or technology. By its nature, venture capital is a very high-risk endeavor, and a career in venture capital is intense and often short.

What Do Venture Capitalists Do? - dummies

Venture capital funds don't last forever. They tend to run on a predictable, ten-year cycle. To give you a better idea of your interactions with VCs, look at their activities paired with yours over the lifetime of the fund. Investors spend the first year raising a fund from high-net-worth individuals (accredited investors), corporations, and institutional [...]
